

# Leaders Leading Change

## The Power of Momentum

### Session Overview

“*Jim has a distinctive presentation style and great energy. He unpacks a modern toolkit of smart behavioural thinking while advocating some radical new habits*”

Director of Executive Programmes at The London Business School

---

Jim Steele

# Leaders Leading Change

## The Power of Momentum

*How to master the art of leading change by aligning direction, purpose, belief and action!*

### ***Brief Description***

Leading change is one of the most challenging yet critical roles of a leader. In this highly interactive session, Jim equips leaders with the tools to navigate transformation by focusing on three pivotal elements: aligning vision and purpose, shifting mindsets and beliefs, and driving execution with impactful action.

Discover how to inspire and empower multi-generational teams to navigate periods of uncertainty with agility, while maintaining engagement and performance.

Jim's dynamic approach integrates neuroscience and performance psychology to ensure leaders not only understand the mechanics of leading change but also gain the practical tools to execute effectively. This session stands out for its focus on engaging leaders in active participation, fostering immediate shifts in perspective and action.
